Whether this was true or not I cannot say, but it's a fact nevertheless that this man started several horses about that ame and backed them beavily. It was said that he practically souttled the ship to bet on them and told the jockey that if they didn't win he'd go broke. The jockey apparently rode as well as he saw how, but the horses were trimmed. Then came a serious quarrel between the boy and his employer which got the fermer into trouble, and they tell me the bold is not yet.

The latter handed over several winners and the Wall Street man promptly took an interest in him. The trainer finally suggested that a well known handicap horse could be purchased for a song. of the stock were made, and tomorrow it will be ready; EVERY PIECE MARKED AT CLOSE TO HALF THE FAIR. PRICE THAT WOULD BE REGULAR FOR SUCH FURNITURE HERE. Considering the unusually fine character of this Furniture, the remarkable diversity of styles, the fact that every plece is new,

an event absolutely without precedent in variety, quality and value. The Grand Rapids Furniture Exchange failed for lack of ample financial resources -- for no other reason. The firm members had for many years received a peculiarly high grade education in Furniture. When they started business for themselves they had opportunity to choose the very cream of the product of the best makers in America-and they did so.

Theirs was a stock probably as choice as was ever brought together in Manhattan. It is all new. It includes choice pieces of practically every sort of Furniture for every room in the house. You will find the Sale especially rich in the most artistic Furniture designed for Summer homes. You will find a rare collection of those odd and individual pieces that are particularly appropriate as

The Furniture is spread through three broad floors here. The pieces from the Grand Rapids Furniture Exchange bear the original tags for identification only. It will be observed that these prices are far more than is ever charged for Loeser Furniture of equal grade. But in every case the agle price offers an actual saving of nearly half of the usual Loeser prices—much more than half on the prices of the Grand Rapids Furniture Exchange. All of this Furniture will be sold for prompt delivery. The circumstances and the opportunities are such that we do not care to hold purchases for any considerable time. But no one who needs Furniture now or will need it soon will wisely miss the chance that is now presented.

Additional experienced salespeople will be ready to assist in prompt service when you come tomorrow. And though the quantity is very large, there are of course some pieces that bear greater reductions than others and we suggest that you come early. The event will well warrant a considerable railroad journey to share its advantages.
